Events and Activities 2023

In 2023, AIA Japan offered diverse programs, including CES lectures, events, and tours. We provided a total of 26 Learning Units (LUs), surpassing the AIA requirement of 18 LUs. This year, we enhanced our CES lectures by offering them in a hybrid format and conducted small-scale in-person events to facilitate more personalized interactions. Our gallery visits and architectural tours were especially effective, providing participants with in-depth and hands-on insights.

Furthermore, AIA Japan officers actively participated in various AIA conferences and events held by allied organizations throughout the year.

AIA The 2023 Annual Meeting at the AIA Conference on Architecture (A'23) saw members from around the globe converge in San Francisco from June 7 to 10. According to AIA's own estimates, the event boasted a turnout of over 15,000 attendees.

The Moscone Center stood as the heart of A'23, hosting an array of events such as celebratory parties, walking tours, open studios, and more, that were scattered throughout the city. President Club

FEBRUARY 09, 2023
(SHINJUKU)

AIA Japan embraces a wonderful tradition known as the "Presidential Lunch". Every year, all past presidents come together to offer insights and counsel to the newly elected president. This year, the tradition continued under the leadership of the 2023 AIAJ president, Tetsuya Yaguchi, who hosted the luncheon at Kakiden, located in the iconic Yasuyo Building in Shinjuku.
