Events and Activities 2024

In 2024, AIA Japan offered diverse programs, including CES lectures, events, and tours. We provided a total of 26 Learning Units (LUs), surpassing the AIA requirement of 18 LUs. Continuing from last year, we enhanced our CES lectures by offering them in a hybrid format and conducted in-person events to facilitate more personalized interactions. Our gallery visits and architectural tours were especially effective, providing participants with in-depth and hands-on insights.

Furthermore, AIA Japan officers actively participated in various AIA conferences and events held by allied organizations throughout the year.
